

SEEDRIFT — CORE MANIFEST (Updated)

PRIMARY VECTOR

- www.sdrift.net
 - anchor point for all threads
 - origin, not direction
 - all signals disperse from here
- QR below

ON DISPERSAL

SEEDRIFT is not a transmission.
It is a dispersal.

Not launched — scattered.
Not linear — diffused.
Not served — sensed.

Presence occurs through fracture.
Intuition replaces navigation.
No two entries resemble each other.

VOXMANCER

- principal narrator and symbolic interface
- not the first point of contact
- acts within the system, not at its threshold
- initiates deep-level sequences and resonance chains
- all access must begin at sdrift.net
- use VoxMancer only after dispersal entry has been initiated

CONDUKTOR NODE

- emissive sub-node for sound artifacts
- operates independently as a SEEDRIFT transmission outlet
- not a label, but a conduit
- launch pending

ARCHITECTURE NOTE

Dispersal is sovereign.
Every output is a seed.
Every access is a deviation.
We do not consolidate. We do not repeat.

If you need coherence, build it.
If you need proof, disappear.
There is no archive. There is only resonar
